#### Internal Abstract

Instructions: This Internal Abstract will not be shared outside of the agency.

These amendments would address potential changes to EPA's policy on when a major source can become an area source, and, thus, become not subject to national emission standards for hazardous air pollutants (NESHAP) for major sources. The Agency received numerous comments regarding this policy in the two public solicitations for comment on regulatory reform held by the EPA and the Department of Commerce, and intends to address it in the near future, either through a new action or a continuation of this action.

#### External Abstract

Instructions: This External Abstract, used for public consumption, will be available on both the Action form and the associated Reg Reporting form.

These amendments would address changes to the EPA's policy on when a major source can become an area source, and, thus, become not subject to national emission standards for hazardous air pollutants (NESHAP) for major sources under Clean Air Act section 112. The Agency received numerous comments regarding this policy in the two public solicitations for comment on regulatory reform held by the EPA and the Department of Commerce, and intends to address it in the near future, either through a new action or a continuation of this action.
